

Please help my friend Thaer and his family evacuate Gaza. He has three brothers and two sisters. One of them is married with a 2 year old daughter named Rahaf. It is so important that you help. They need €40,000 to cross the border into Egypt and another €40,000 to reach Belgium and seek asylum.

“We have been living under constant bombardments from airstrikes. We share one tent between 10 of us with no electricity, gas, or human toilet. We lack clean water, and food is considered a luxury.

My little neice can’t have her milk and her daily needs for nutritional support and my kittle brother Bashar has lost his dream in becoming a doctor after destroying his university.

We are living in fear all the time, and we are waiting for our death every moment. I can't explain to you how awful it is to hear tanks, bombs and the clashes so close to us. Gaza is a very small place, nowhere to run.”
